

HIIT

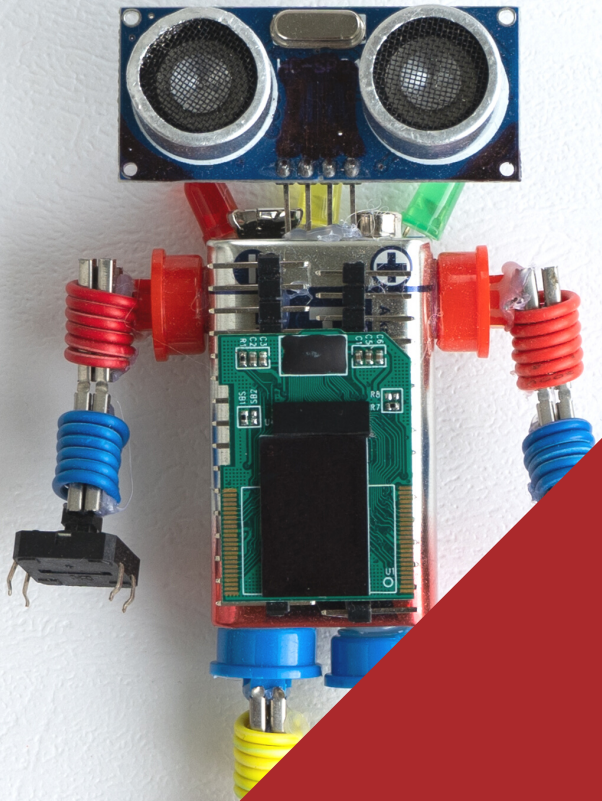

The main aim of HIIT is to equip HE STEM teachers with the self-efficacy, competencies and skills needed to understand the principles and constructs of Instructional Technology and rapidly leverage these to mitigate the impact of the closure and safeguard the inclusive nature of learning opportunities.

hiitproject.eu

Co-funded by the Erasmus+ Programme of the European Union

HIIT PROJECT

HE TEACHERS AND INSTITUTIONS AND INSTRUCTIONAL TECHNOLOGY

OUTCOMES

The project will produce interim outcomes, results and formal project results. HIIT Instructional Technology Curriculum & Syllabus builds upon the analysis at proposal and preparation stages and are based upon a solid methodological approach will employ focus groups and surveys to refine the learning objectives, methodology, content and skills assessment method.
